CAREER PROFILE

My name is Dmitry Zatulovsky. I began my professional career in 1996, designing and implementing computer networks. For more than ten years, I worked in the fields of print, design, and advertising, progressing from designer to art director.

In recent years, I have fully devoted myself to web development and JavaScript programming. I create modern interfaces and complex web applications, specializing in React and related technologies, and have also developed several WebXR applications.

My knowledge of design enables me to create not only functional but also visually appealing and user-friendly solutions, which significantly enhances the quality of my projects as a developer.

I am currently open to collaboration with companies as a Lead Frontend React Developer – designing solution architecture, delivering end-to-end projects, and leading development teams.

You can download this is Resume/CV.

EXPERIENCES

Lead Frontend React Developer & Mobile Flutter Developer

2022 – 2025

"Colibrity Agency" France, Paris

Led the development of frontend solutions and mobile applications for international clients. Organized and managed the team, oversaw project architecture, interacted with customers, and ensured high-quality releases. Implemented modern web applications using React and cross-platform mobile solutions with Flutter.

Frontend Developer, UI/UX Designer, HTML Layout maker

2011 – 2022

"Golden Minds", Tashkent

Developed interfaces for web services, corporate websites, online stores, and landing pages for various clients. Built SPA applications with ReactJS and VueJS. Handled the full workflow from UX design to adaptive layout implementation.

Designer

2010 - 2011

"SM-Alliance", Tashkent

Worked on promoting LG and AOC products in the market. Developed advertising campaigns, signage, stands, brand identity for retail points, and store designs. Prepared layouts for print media and outdoor advertising, created flash banners for online campaigns.

Art director

2009

"DiPLUS", Tashkent

Responsible for redesigning and formatting the newspaper: managed layout, prepared illustrations and photos for print, coordinated with printing houses and photographers, monitored print quality, and provided technical support for the editorial team.

Art director

2008 - 2009

"Career Press" , Tashkent

Art director of the "Careerist" magazine. Developed the magazine's concept and visual style, managed layout, handled illustrations and photos, ensured print quality, and organized the editorial workflow.

Web Designer

2007 - 2010

"LIS International Design.", Irvin, USA

I completed orders for website design and corporate identity development for various companies that were clients of LIS International Design.

Designer

2007

"BAS Programme (EBRD)", Tashkent

I was responsible for the design and layout of the project's email newsletters, as well as the design and formatting of monthly reports.

Designer

2002 - 2005

"NCI Projects Inc.", Tashkent

I worked on the creation of a corporate website and was responsible for its support and promotion (including banners, screensavers, and wallpapers). I also handled office design tasks such as booklets, folders, pens, and notepads. Additionally, I contributed to the design of an advertising platform for the Kitel 2002 exhibition in Kazakhstan, and participated in the development of an electronic Russian language textbook (for elementary school students) for the Ministry of Public Education of Uzbekistan. I was also involved in developing the corporate identity for the company "Soft Engineer" (Kazakhstan).

Designer and Flash Maker

2003

"MFD-InfoCenter.", Moscow

I completed orders for the production of banners for online advertising campaigns. I also developed and prepared office design elements for print.

Designer and Art director

1999 - 2008

Center for Economic Research.

(UNDP project "Social and Economic Development of Uzbekistan"), Tashkent

I worked at "Economic Review" magazine, published by the Center, where I headed the publications department. My responsibilities included layout, design, production of advertising materials, retouching, and photo preparation for print. I was responsible for all technical and artistic processes within the magazine's editorial office.

Engineer and Project manager

1996 - 1998

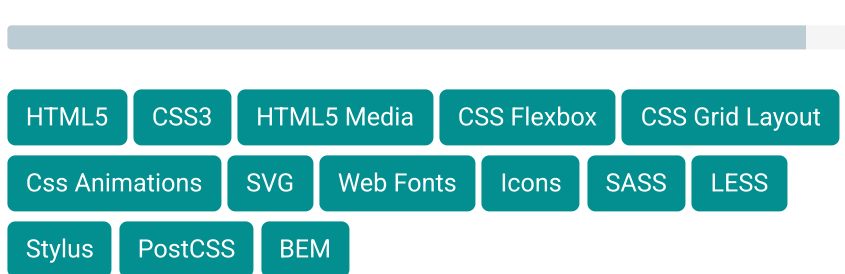

OOO "Olsoft", Tashkent

I worked as a project manager in the field of computer network technologies and led a team responsible for developing websites and producing original advertising materials for the company's clients.
